SUMMARY

Game Developer with hands-on Unity (C#) experience in 2D and 3D gameplay programming, plus a 4-month AR/VR internship building Augmented Reality and Virtual Reality applications in Unity and Unreal Engine. Skilled in game mechanics, debugging and performance optimization, with a Game Tester mindset: manual testing, bug reporting and build verification on every release. Seeking a Junior Game Developer, Unity Developer, AR/VR Developer or Game QA Tester role.

SKILLS

Game Development	Unity (2D & 3D), C#, Gameplay Programming, Game Mechanics, Game Logic, Physics & Collision, Player Controls, Scene & Prefab Management, UI Design, Real-Time Applications
Game Testing / QA	Manual Testing, Gameplay Testing, Functional Testing, Test Cases, Bug Identification & Reporting, Debugging, Regression Testing, Performance Optimization, Build Verification
AR / VR	Augmented Reality (AR), Virtual Reality (VR), Vuforia Model Targets, XR Interaction Toolkit, iPad / iOS AR, 3D Asset Integration, Immersive Experiences
Engines & Tools	Unity Editor, Unreal Engine, Visual Studio, Git, GitHub, C++, Blender (Basics)

PROFESSIONAL EXPERIENCE

AR/VR Intern | IQ TechMax Private Limited, Chennai, India Dec 2025 – Mar 2026

- Built AR/VR applications in Unity and Unreal Engine as part of a cross-functional team.
- Integrated 3D assets and set up scenes and interaction design for real-time applications.
- Programmed gameplay logic and user interactions in C# to create interactive environments.
- Tested and debugged builds and optimized performance for smooth, stable runs.
- Worked with designers and developers throughout AR/VR project development.

PROJECTS

AR Overlay Application | Unity, C#, Vuforia iPad

- Built an AR app that overlays 3D models onto real-world objects using Vuforia Model Target detection.
- Designed a guided workflow (Scan, Adjust, Retry, Checklist Verification) with interactive scenes and integrated 3D assets.
- Tested on iPad, then debugged and optimized for performance and stability.

Mobile Tower VR Simulator | Unity, C#, XR Interaction Toolkit

- Developed a VR simulator for interactive visualization and training on mobile tower structures.
- Implemented 3D models, real-time interactions and user navigation in an immersive environment.
- Worked with team members to improve simulation accuracy and user experience; tested, debugged and optimized for stability.

2D & 3D Chess Game | Unity, C#

- Built a chess game with 2D and 3D modes and interactive gameplay.
- Programmed core logic, including piece movement, rules validation and a turn-based system.
- Designed the UI; tested, debugged and optimized for smooth gameplay.

Flappy Bird, Dino Runner and Mario-style Platformer | Unity, C#

- Built three 2D games to practice player movement, physics, obstacle spawning and game-state logic (source on GitHub).

EDUCATION

Master of Computer Applications (MCA) | St. Joseph's College, Tiruchirappalli Jun 2024 – Apr 2026

Bachelor of Computer Science | St. Joseph's College, Tiruchirappalli Aug 2021 – Apr 2024

CERTIFICATIONS

Game Tester Certification (Udemy) | Google IT Support Professional Certificate (Google)
